Product No.:   96824793

Communication interface for Profibus DP
- for automation

The CIM 150 is a standard interface for data transmission between a Profibus DP network and a Grundfos pump or controller. It makes data exchange possible between Grundfos pumping systems and a PLC or SCADA system.

No custom programming is needed to integrate the CIM 150 in a Profibus network. System integration is very straight-forward with standard GSD files and support for the standard profile for intelligent pumps from Profibus International.

The CIM 150 is an add-on communication module installed internally in the Grundfos product.

Supported products:
- E-pumps CRE/CRNE/CRIE, MTRE, CME, TPE2 / TPE3, NBE/NKE with MGE model H/I/J and 11-22kW
  MAGNA3 circulators
  CU 352 MPC controller
  CU 354 DDD controller
  Hydro Multi-E based on MGE model H/I/J
  CU 362 Dedicated Controls
  LC 2x1 Level controller

Description	Value
General information:	
Product name:	CIM 150 PROFIBUS
Product No:	96824793
EAN number:	5700311213766
Technical:	
Communication:	PROFIBUS
Main component:	Communication Module
Approvals:	UL
Others:	
Net weight:	0.04 kg
Gross weight:	0.26 kg
Danish VVS No.:	380698150
Finnish LVI No.:	9414033
Norwegian NRF no.:	9040945
Environmental approvals:	WEEE
